Blackstone Private Multi-Asset Credit and Income Fund (“BMACX”)

DECEMBER 2025

All data as of September 30, 2025, unless otherwise stated.

This is neither an offer to sell nor a solicitation to buy the securities described herein and must be read in conjunction with the prospectus in order to understand fully all of the implications and risks of the offering to which this material relates. A COPY OF THE [PROSPECTUS](#) MUST BE MADE AVAILABLE TO INVESTORS IN CONNECTION WITH THIS OFFERING, AND IS AVAILABLE AT WWW.BMACX.COM.

Blackstone Private Multi-Asset Credit and Income Fund (“BMACX”)

SUMMARY OF RISK FACTORS

Blackstone Private Multi-Asset Credit and Income Fund (“BMACX” or the “Fund”) is a non-diversified, closed-end management company that is registered under the Investment Company Act of 1940, as amended, and operates as an interval fund. The Fund expects to be invested across corporate private credit, asset based and real estate credit, structured credit, and liquid credit. This investment involves a high degree of risk. You should purchase our shares of common stock (“Common Shares”) only if you can afford a complete loss of your investment. You should read the prospectus carefully for a description of the risks associated with an investment in the Fund. Some of the more significant risks relating to an investment in our Common Shares include the following:

- There is no assurance that we will achieve our investment objectives.
- You should not expect to be able to sell all or most of your Common Shares regardless of how we perform.
- You should consider that you may not have access to the money you invest for an extended period of time.
- We do not intend to list our Common Shares on any securities exchange, and we do not expect a secondary market in our Common Shares to develop prior to any listing.
- Because you may be unable to sell your Common Shares, you may be unable to reduce your exposure in any market downturn.
- We have elected to operate as an “interval fund” and will make quarterly repurchase offers, but only a limited number of Common Shares will be eligible for repurchase and the need to fund repurchase obligations may affect our ability to be fully invested or force us to maintain a higher percentage of assets in liquid investments, which may harm our investment performance.
- An investment in the Fund is suitable only for investors who can bear the risks associated with limited liquidity. See “Share Repurchase Program” in the prospectus.
- You will bear substantial fees and expenses in connection with your investment. See “Fees and Expenses” in the prospectus.
- We cannot guarantee that we will make distributions, and if we do, we may fund such distributions from sources other than net investment income, including the sale of assets, borrowings, return of capital or offering proceeds, and although we generally expect to fund distributions from net investment income, we have not established limits on the amounts we may pay from such sources. A return of capital is not paid from tax earnings or profits and will have the effect of reducing the tax basis of a shareholder’s Common Shares, such that when a shareholder sells its Common Shares the sale may be subject to tax, even if the Common Shares are sold for less than the original purchase price.
- Distributions may also be funded in significant part, directly or indirectly, from temporary waivers or expense reimbursements borne by our adviser, Blackstone Private Credit Strategies LLC (the “Adviser”) or its affiliates, that may be subject to reimbursement to the Adviser or its affiliates. The repayment of any amounts owed to our affiliates will reduce future distributions to which you would otherwise be entitled.
- The Fund intends to utilize leverage and may utilize leverage to the maximum extent permitted by law for investment and other general corporate purposes, which will magnify the potential for loss on amounts invested in the Fund. See “Leverage,” “Risks—Leverage Risk,” and “Description of Shares—Preferred Shares” in the prospectus.
- We intend to invest in securities that are rated below investment grade by rating agencies or that would be rated below investment grade if they were rated. Below investment grade securities, which are often referred to as “junk,” have predominantly speculative characteristics with respect to the issuer’s capacity to pay interest and repay principal. They may also be illiquid and difficult to value.

Neither the Securities and Exchange Commission nor any state securities regulator has approved or disapproved of these securities or determined if the Fund’s prospectus is truthful or complete. Any representation to the contrary is unlawful.

Numerical data is approximate and as of September 30, 2025, unless otherwise noted. The words “we”, “us”, and “our” refer to BMACX, unless the context requires otherwise.

IMPORTANT DISCLOSURE INFORMATION

This document (together with any attachments, appendices, and related materials, the "Materials") is provided for informational purposes only and is not, and may not be relied on in any manner as legal, tax, investment, accounting or other advice or as an offer to sell, or a solicitation of an offer to buy, any security or instrument in or to participate in any trading strategy with Blackstone Alternative Credit Advisors LP or its affiliates in the credit, asset based finance and insurance asset management business unit of Blackstone (collectively, "Blackstone Credit & Insurance" or "BXCI") or any fund or separately managed account currently or to be sponsored, managed, advised or sub-advised or pursued by Blackstone Credit & Insurance (each, a "Fund"), nor shall it or the fact of its distribution form the basis of, or be relied on in connection with, any contract or investment decision. If such offer is made, it will only be made by means of an offering memorandum or prospectus (collectively with additional offering documents, the "Offering Documents"), which would contain material information (including certain risks of investing in such Fund) not contained in the Materials and which would supersede and qualify in its entirety the information set forth in the Materials. Any decision to invest in a Fund should be made after reviewing the Offering Documents of such Fund, conducting such investigations as the investor deems necessary and consulting the investor's own legal, accounting, and tax advisers to make an independent determination of the suitability and consequences of an investment in such Fund. In the event that the descriptions or terms described herein are inconsistent with or contrary to the descriptions in or terms of the Offering Documents, the Offering Documents shall control. None of Blackstone, its funds, nor any of their affiliates makes any representation or warranty, express or implied, as to the accuracy or completeness of the information contained herein and nothing contained herein should be relied upon as a promise or representation as to past or future performance of a Fund or any other entity, transaction, or investment. Unless otherwise expressly stated, all information in these materials is as of September 30, 2025 (the "Reporting Date"). Capitalized terms used herein but not otherwise defined have the meanings set forth in the Offering Documents.

Past performance does not predict future returns. Actual results may vary. Diversification of an investor's portfolio does not assure a profit or protect against loss in a declining market.

Alternative investments involve complex tax structures, tax inefficient investing, and delays in distributing important tax information. Individual funds have specific risks related to their investment programs that will vary from fund to fund. Investors should consult their own tax and legal advisors as Dealers generally do not provide tax or legal advice. BDCs are generally not taxed at the corporate level to the extent they distribute all of their taxable income in the form of dividends. Ordinary income dividends are taxed at individual tax rates and distributions may be subject to state tax. Each investor's tax considerations are different and consulting a tax advisor is recommended. Any of the data provided herein should not be construed as investment, tax, accounting, or legal advice. Please note that tax treatment depends on the individual circumstances of each investor and may be subject to change in the future.

All rights to the trademarks included herein belong to their respective owners and our use hereof does not imply any affiliation with, or endorsement by, the owners of these trademarks.

Any prior investment results of any fund and any hypothetical information are presented in this Material for illustrative purposes only and are not indicative of the future results of such fund.

IMPORTANT DISCLOSURE INFORMATION

This material is for information purposes only and does not constitute a financial promotion, investment advice or an inducement or incitement to participate in any product, offering or investment. It does not constitute or form part of any offer to issue or sell, or any solicitation of any offer to subscribe or purchase any investment nor shall it or the fact of its distribution form the basis of, or be relied on in connection with, any contract.

Blackstone Securities Partners L.P. ("BSP") is a broker-dealer whose purpose is to distribute Blackstone managed or affiliated products. BSP provides services to its Blackstone affiliates, not to investors in its funds, strategies, or other products. BSP does not make any recommendation regarding, and will not monitor, any investment. As such, when BSP presents an investment strategy or product to an investor, BSP does not collect the information necessary to determine—and BSP does not engage in a determination regarding—whether an investment in the strategy or product is in the best interests of, or is suitable for, the investor. You should exercise your own judgment and/or consult with a professional advisor to determine whether it is advisable for you to invest in any Blackstone strategy or product. Please note that BSP may not provide the kinds of financial services that you might expect from another financial intermediary, such as overseeing any brokerage or similar account. For financial advice relating to an investment in any Blackstone strategy or product, contact your own professional advisor.

In considering any investment performance information contained in the Materials, prospective **and current investors should bear in mind that past or estimated performance does not predict future returns** and there can be no assurance that a Fund will achieve comparable results, implement its investment strategy, achieve its objectives or avoid substantial losses or that any expected returns will be met.

Fund performance shown for the performance period reflects a Fund's return since inception and is based on the actual management fees and expenses paid by Fund investors as a whole. Performance for individual investors will vary (in some cases materially) from the performance stated herein as a result of the management fees paid or not paid by certain investors; the investor servicing fees paid by certain investors, as applicable; the timing of their investment; and/or their individual participation in Fund investments. The management fees paid by certain investors during the performance period are materially different from those paid by other investors during the performance period due to, among other factors, fee holidays for shareholders subscribing to a first close, arrangements whereby an investor's fees are calculated based on invested rather than committed capital, or fee breaks for investors committing at or above a specified capital amount. In addition, certain investors may pay investor servicing fees to the manager during the performance period. Finally, fund performance shown may not reflect returns experienced by any particular investor in a Fund since actual returns to investors depend on when each investor invested in such Fund.

Although the model portfolios reflected in these Materials are believed to be consistent with the investment strategy of the Fund, there is no guarantee that the actual portfolios will remain identical to the make-up of such model portfolios. Moreover, the actual investments to be made by the Fund may differ substantially from the investments represented. Therefore, the parameters, industry concentration, rating concentration, spread distribution and other factors related could all be materially different than those of the actual portfolio acquired by the Fund. Any targets, forecasts and estimates contained herein are based upon certain assumptions that the Fund considers reasonable. Targets, forecasts and estimates are necessarily speculative in nature, and it can be expected that some or all of the assumptions underlying the targets, forecasts and estimates will not materialize or will vary significantly from actual results. The inclusion of targets, forecasts, and estimates herein should not be regarded as a representation or guarantee regarding the reliability, accuracy, or completeness of the information contained herein and the Fund is under no obligation to update or keep current such information. Unless otherwise indicated, the information provided herein is based on matters as they exist as of the date of preparation and not as of any future date.

The materials may contain information obtained from third parties, including ratings from credit ratings agencies such as Standard & Poor's. Reproduction and distribution of third-party content in any form is prohibited except with the prior written permission of the related third party. Third party content providers do not guarantee the accuracy, completeness, timeliness or availability of any information, including ratings, and are not responsible for any errors or omissions (negligent or otherwise), regardless of the cause, or for the results obtained from the use of such content. THIRD PARTY CONTENT PROVIDERS GIVE NO EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE. THIRD PARTY CONTENT PROVIDERS SHALL NOT BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, EXEMPLARY, COMPENSATORY, PUNITIVE, SPECIAL OR CONSEQUENTIAL DAMAGES, COSTS, EXPENSES, LEGAL FEES, OR LOSSES (INCLUDING LOST INCOME OR PROFITS AND OPPORTUNITY COSTS OR LOSSES COSTS BY NEGLIGENCE) IN CONNECTION WITH ANY USE OF THEIR CONTENT, INCLUDING RATINGS. Credit ratings are statements of opinions and are not statements of fact or recommendations to purchase, hold or sell securities. They do not address the suitability of securities or the suitability of securities for investment purposes and should not be relied on as investment advice.

IMPORTANT DISCLOSURE INFORMATION

Adviser Discretion. These materials contain information relating to transactions consummated by certain funds sub-advised by BXCI over which Blackstone Credit & Insurance does not have investment discretion. The applicable non-Blackstone Credit & Insurance entities that act as advisers to such funds retain investment discretion over their investment programs. Thus, while Blackstone Credit & Insurance proposes investment opportunities to such advisers for investment, such advisers have investment discretion to approve or reject such proposed investment opportunities.

Asset Based Finance. As used herein, the "Asset Based Finance Business" or "ABF" refers to strategies managed or sub-managed by Blackstone Asset Based Finance Advisors LP.

Awards, Honors or Other Rankings. Any awards, honors, or other references or rankings referred to herein with respect to Blackstone and/or any investment professional are provided solely for informational purposes and are not intended to be, nor should they be construed as or relied upon as, any indication of future performance or other future activity. Any such awards, honors, or other references or rankings may have been based on subjective criteria and may have been based on a limited universe of participants, and there are other awards, honors, or other references or rankings given to others and not received by Blackstone and/or any investment professional of Blackstone.

Blackstone Proprietary Data. Certain information and data provided herein is based on Blackstone proprietary knowledge and data. Portfolio companies may provide proprietary market data to Blackstone, including about local market supply and demand conditions, current market rents and operating expenses, capital expenditures, and valuations for multiple assets. Such proprietary market data is used by Blackstone to evaluate market trends as well as to underwrite potential and existing investments. While Blackstone currently believes that such information is reliable for purposes used herein, it is subject to change, and reflects Blackstone's opinion as to whether the amount, nature, and quality of the data is sufficient for the applicable conclusion, and no representations are made as to the accuracy or completeness thereof.

Case Studies. The selected investment examples, case studies, and/or transaction summaries presented or referred to herein may not be representative of all transactions of a given type or of investments generally and are intended to be illustrative of the types of investments that have been made or may be made by a Fund in employing such Fund's investment strategies. It should not be assumed that a Fund will make equally successful or comparable investments in the future. Moreover, the actual investments to be made by a Fund or any other future fund will be made under different market conditions from those investments presented or referenced in the materials and may differ substantially from the investments presented herein as a result of various factors. Prospective investors should also note that the selected investment examples, case studies, and/or transaction summaries presented or referred to herein have involved Blackstone professionals who will be involved with the management and operations of a Fund as well as other Blackstone personnel who will not be involved in the management and operations of such Fund. Certain investment examples described herein may be owned by investment vehicles managed by Blackstone and by certain other third-party equity partners, and in connection therewith Blackstone may own less than a majority of the equity securities of such investment. Further investment details are available upon request.

Conflicts of Interest. There may be occasions when a Fund's investment advisor, and its affiliates will encounter potential conflicts of interest in connection with such Fund's activities, including, without limitation, the allocation of investment opportunities, relationships with Blackstone's and its affiliates' investment banking and advisory clients, and the diverse interests of such Fund's shareholders. There can be no assurance that the Adviser will identify, mitigate, or resolve all conflicts of interest in a manner that is favorable to the Fund.

Currency Risk / Exchange Rate. Currency fluctuations may have an adverse effect on the value price, income, or the costs of the product which may increase or decrease as a result of changes in exchange rates.

Diversification; Potential Lack Thereof. Diversification is not a guarantee of either a return or protection against loss in declining markets. The number of investments which a Fund makes may be limited, which would cause the Fund's investments to be more susceptible to fluctuations in value resulting from adverse economic or business conditions with respect thereto. There is no assurance that any of the Fund's investments will perform well or even return capital; if certain investments perform unfavorably, for the Fund to achieve above-average returns, one or a few of its investments must perform very well. There is no assurance that this will be the case. In addition, certain geographic regions and/or industries in which the Fund is heavily invested may be more adversely affected from economic pressures when compared to other geographic regions and/or industries.

IMPORTANT DISCLOSURE INFORMATION

Estimates / Targets. Any estimates, targets, forecasts, or similar predictions or returns set forth herein are based on assumptions and assessments made by Blackstone that it considers reasonable under the circumstances as of the date hereof. They are necessarily speculative, hypothetical, and inherently uncertain in nature, and it can be expected that some or all of the assumptions underlying such estimates, targets, forecasts, or similar predictions or returns contained herein will not materialize and/or that actual events and consequences thereof will vary materially from the assumptions upon which such estimates, targets, forecasts, or similar predictions or returns have been based. Among the assumptions to be made by Blackstone in performing its analysis are (i) the amount and frequency of current income from an investment, (ii) the holding period length, (iii) EBITDA growth and cost savings over time, (iv) the manner and timing of sale, (v) exit multiples reflecting long-term averages for the relevant asset type, (vi) customer growth and other business initiatives, (vii) availability of financing, (viii) potential investment opportunities Blackstone is currently or has recently reviewed and (ix) overall macroeconomic conditions such as GDP growth, unemployment, and interest rate levels. Inclusion of estimates, targets, forecasts, or similar predictions or returns herein should not be regarded as a representation or guarantee regarding the reliability, accuracy, or completeness of such information, and neither Blackstone nor the Fund is under any obligation to revise such returns after the date provided to reflect the occurrence of future events, even in the event that any or all of the assumptions underlying such returns are later shown to be incorrect. None of Blackstone, the Fund, their affiliates or any of the respective directors, officers, employees, partners, shareholders, advisers and agents of any of the foregoing makes any assurance, representation or warranty as to the accuracy of such assumptions. Investors and clients are cautioned not to place undue reliance on these forward-looking statements. Recipients of the materials are encouraged to contact Fund representatives to discuss the procedures and methodologies used to make the estimates, targets, forecasts, and/or similar predictions or returns and other information contained herein.

Forward-Looking Statements. Certain information contained in this communication constitutes "forward looking statements" within the meaning of the federal securities laws. These forward-looking statements can be identified by the use of forward-looking terminology, such as "outlook," "indicator," "believes," "expects," "potential," "continues," "may," "can," "will," "could," "should," "seeks," "approximately," "predicts," "intends," "plans," "estimates," "anticipates," "confident," "conviction," "identified" or the negative versions of these words or other comparable words thereof. These may include financial estimates and their underlying assumptions, statements about plans, objectives and expectations with respect to future operations, statements regarding future performance, statements regarding economic and market trends and statements regarding identified but not-yet-closed investments. Such forward-looking statements are inherently subject to various risks and uncertainties. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in such statements. BMACX believes these factors also include but are not limited to those described under the section entitled "Risk Factors" in its prospectus, and any such updated factors included in its periodic filings with the Securities and Exchange Commission (the "SEC"), which are accessible on the SEC's website at www.sec.gov. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this document (or BMACX's prospectus and other filings). Except as otherwise required by federal securities laws, BMACX undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future developments or otherwise.

Highly Competitive Market for Investment Opportunities. The activity of identifying, completing, and realizing attractive investments is highly competitive, and involves a high degree of uncertainty. There can be no assurance that a Fund will be able to locate, consummate, and exit investments that satisfy its objectives or realize upon their values or that a Fund will be able to fully invest the offering proceeds. There is no guarantee that investment opportunities will be allocated to a Fund and/or that the activities of Blackstone's other funds will not adversely affect the interests of such Fund.

Illiquidity and Variable Valuation. There is no organized secondary market for investors' interests in any Fund nor is there an organized market for which to sell a Fund's underlying investments, and none is expected to develop. Withdrawal and transfer of interests in a Fund are subject to various restrictions, and similar restrictions will apply in respect of the Fund's underlying investments. Further, the valuation of a Fund's investments will be difficult, may be based on imperfect information and is subject to inherent uncertainties, and the resulting values may differ from values that would have been determined had a ready market existed for such investments, from values placed on such investments by other investors and from prices at which such investments may ultimately be sold.

Images. The materials may contain select images of certain investments that are provided for illustrative purposes only and may not be representative of an entire asset or portfolio or of a Fund's entire portfolio. Such images may be digital renderings of investments rather than actual photos.

Leverage. The Fund currently uses leverage. The use of leverage or borrowings magnifies investment, market and certain other risks and may be significant. The Fund's performance will be affected by the availability and terms of any leverage as such leverage will enhance returns from investments to the extent such returns exceed the costs of borrowings by the Fund. The leveraged capital structure of such assets will increase their exposure to certain factors such as rising interest rates, downturns in the economy, or deterioration in the financial condition of such assets or industry. In the event an investment cannot generate adequate cash flow to meet its debt service, the Fund may suffer a partial or total loss of capital invested in the investment, which may adversely affect the returns of the Fund. In addition, because the Fund will pay all expenses, including interest, associated with the use of leverage or borrowings, investors will indirectly bear such cost.

IMPORTANT DISCLOSURE INFORMATION

Logos. The logos presented herein were not selected based on performance of the applicable company or sponsor to which they pertain. Logos were selected to illustrate managers and/or portfolio companies that are indicative representations of the thesis, theme, or trend discussed on the slide(s) where they appear. In Blackstone's opinion, the logos selected were generally the most applicable examples of the given thesis, theme, or trend discussed on the relevant slide(s). All rights to the trademarks and/or logos presented herein belong to their respective owners and Blackstone's use hereof does not imply an affiliation with, or endorsement by, the owners of these logos.

Material, Non-Public Information. In connection with other activities of Blackstone, certain Blackstone personnel may acquire confidential or material non-public information or be restricted from initiating transactions in certain securities, including on a Fund's behalf. As such, a Fund may not be able to initiate a transaction or sell an investment. In addition, policies and procedures maintained by Blackstone to deter the inappropriate sharing of material non-public information may limit the ability of Blackstone personnel to share information with personnel in Blackstone's other business groups, which may ultimately reduce the positive synergies expected to be realized by a Fund as part of the broader Blackstone investment platform.

No Assurance of Investment Return. Prospective investors should be aware that an investment in a Fund is speculative and involves a high degree of risk. There can be no assurance that a Fund will achieve comparable results, implement its investment strategy, achieve its objectives or avoid substantial losses or that any expected returns will be met (or that the returns will be commensurate with the risks of investing in the type of transactions described herein). The portfolio companies in which a Fund may invest (directly or indirectly) are speculative investments and will be subject to significant business and financial risks. A Fund's performance may be volatile. An investment should only be considered by sophisticated investors who can afford to lose all or a substantial amount of their investment. A Fund's fees and expenses may offset or exceed its profits.

Limited Operating History. Prospective investors should note that the Fund has recently commenced operations and therefore has limited operating history upon which prospective investors may evaluate its performance. Past activities of investment vehicles managed or sponsored by Blackstone provide no assurance of future success. Moreover, the prior investment results of the existing BXCI Funds are provided for illustrative purposes only and not to imply that such results will be obtained in the future.

Opinions. Opinions expressed reflect the current opinions of Blackstone as of the date appearing in the materials only and are based on Blackstone's opinions of the current market environment, which is subject to change. Certain information contained in the materials discusses general market activity, industry or sector trends, or other broad-based economic, market, or political conditions and should not be construed as research or investment advice.

Recent Market Events Risk. Local, regional, or global events such as war (e.g., Russia / Ukraine), acts of terrorism, public health issues like pandemics (e.g., COVID-19), recessions, or other economic, political and global macro factors and events could lead to a substantial economic downturn or recession in the US and global economies and have a significant impact on the Fund and its investments. The recovery from such downturns is uncertain and may last for an extended period of time or result in significant volatility, and many of the risks discussed herein associated with an investment in the Fund may be increased.

Reliance on Key Management Personnel. The success of a Fund will depend, in large part, upon the skill and expertise of certain Blackstone professionals. In the event of the death, disability, or departure of any key Blackstone professionals, the business and the performance of a Fund may be adversely affected. Some Blackstone professionals may have other responsibilities, including senior management responsibilities, throughout Blackstone and, therefore, conflicts are expected to arise in the allocation of such personnel's time (including as a result of such personnel deriving financial benefit from these other activities, including fees and performance-based compensation).

Target Allocations. There can be no assurance that a Fund will achieve its objectives or avoid substantial losses. Allocation strategies and targets depend on a variety of factors, including prevailing market conditions and investment availability. There is no guarantee that such strategies and targets will be achieved, and any particular investment may not meet the target criteria.

Third Party Information. Certain information contained in the materials has been obtained from sources outside Blackstone, which in certain cases have not been updated through the date hereof. While such information is believed to be reliable for purposes used herein, no representations are made as to the accuracy or completeness thereof and none of Blackstone, its funds, nor any of their affiliates takes any responsibility for, and has not independently verified, any such information.

Trends. There can be no assurances that any of the trends described herein will continue or will not reverse. Past events and trends do not imply, predict or guarantee, and are not necessarily indicative of, future events or results.

IMPORTANT DISCLOSURE INFORMATION

Additional Risks. The Fund and the investment in it is subject to further risks, including those related to unspecified use of proceeds, shareholder suitability, drawdowns of capital commitments, termination of the investment period, dependence on key individuals, retention and motivation of key employees, replacement of the Adviser, diverse shareholder group, enhanced scrutiny of the alternative investment industry, availability of leverage, non-US investments, anti-money laundering, limited liquidity, incentive allocation, policies and procedures of Blackstone and its affiliates, in-kind distributions, and investments with other clients.

The Materials may contain information obtained from third parties, including ratings from credit ratings agencies such as Standard & Poor's. Reproduction and distribution of third-party content in any form is prohibited except with the prior written permission of the related third party. Third party content providers do not guarantee the accuracy, completeness, timeliness, or availability of any information, including ratings, and are not responsible for any errors or omissions (negligent or otherwise), regardless of the cause, or for the results obtained from the use of such content. THIRD PARTY CONTENT PROVIDERS GIVE NO EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE. THIRD PARTY CONTENT PROVIDERS SHALL NOT BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, EXEMPLARY, COMPENSATORY, PUNITIVE, SPECIAL OR CONSEQUENTIAL DAMAGES, COSTS, EXPENSES, LEGAL FEES, OR LOSSES (INCLUDING LOST INCOME OR PROFITS AND OPPORTUNITY COSTS OR LOSSES COSTS BY NEGLIGENCE) IN CONNECTION WITH ANY USE OF THEIR CONTENT, INCLUDING RATINGS. Credit ratings are statements of opinions and are not statements of fact or recommendations to purchase, hold, or sell securities. They do not address the suitability of securities or the suitability of securities for investment purposes and should not be relied on as investment advice.

IMPORTANT DISCLOSURE INFORMATION

Index Definitions

Morningstar LSTA Leveraged Loan Index is a market value-weighted index designed to measure the performance of the U.S. leveraged loan market based upon market weightings, spreads and interest payments.

Bloomberg U.S. Corporate High Yield Index measures the USD-denominated, high-yield, fixed-rate corporate bond market. Securities are classified as high yield if the middle rating of Moody's, Fitch and S&P is Ba1/BB+/BB+ or below.

Bloomberg U.S. Aggregate Bonds Index represents securities that are SEC-registered, taxable, and USD-denominated. The index covers the U.S. investment grade fixed-rate bond market, with index components for government and corporate securities, mortgage pass-through securities, and asset-backed securities. These major sectors are subdivided into more specific indices that are calculated and reported on a regular basis.

While the liquidity of an asset in public markets depends on its credit rating and market conditions, there exists a secondary market for such bonds. BMACX does not trade on a national securities exchange and, therefore, is generally illiquid. Your ability to redeem shares in BMACX through BMACX's share repurchase plan may be limited and fees associated with the sale of these products can be higher than those of other asset classes. See "Share Repurchase Program" in the prospectus. Upon liquidation, return of capital may be more or less than the original investment depending on the value of assets.

The volatility and risk profile of the indices presented are likely to be materially different from those of BMACX because, among other things, BMACX's shares are not fixed-rate debt instruments and such bonds represent debt issued by corporations across a variety of issuers with varying pricing, terms, and conditions. BMACX's share price is based on the value of assets it owns and is not subject to market pricing forces in the same way the prices of investments such as bonds and loans in public markets are, but is not immune to fluctuations. Furthermore, issuers of investment grade bonds and high-yield bonds are contractually obligated to pay periodic interest and repay a fixed principal amount at maturity, whereas we cannot guarantee that we will make any distributions and investing in BMACX involves a high degree of risk, as described in the BMACX prospectus.

The aforementioned indices employ different investment guidelines and criteria than BMACX; as a result, the assets in BMACX may differ significantly from the holdings of the securities that comprise these indices. Such credit assets that comprise the securities underlying the aforementioned indices generally provide investors with current income, and BMACX's primary objective is to generate current income, and, to a lesser extent, long-term capital appreciation. While BMACX will dynamically invest in assets across a wide range of credit and income-oriented strategies with a focus on private investments, an investment in BMACX is not a direct investment in the underlying portfolio companies and we expect many of our BMACX's debt will be unrated or carry a rating below investment grade. It is important for investors to consider these differences in costs, expenses, liquidity, volatility, and risk profile when comparing BMACX to direct investments in the aforementioned indices or the underlying securities they represent.

BMACX is a one-stop, multi-asset credit solution designed to access Blackstone's leading credit platform

- 1 A core portfolio building block to tap attractive and expanding private credit markets
- 2 Seeks to deliver high quality, diversified income with lower volatility than traditional fixed income
- 3 Leverages scale and insights of Blackstone Credit, the world's largest third-party alternative credit manager⁽¹⁾
- 4 Built for individual investors with enhanced ease of access and operationally efficient terms

Note: The above represents Blackstone's current expectations and will be superseded by and qualified in its entirety by final offering materials. There can be no assurance that any Blackstone fund or investment will achieve its objectives or avoid substantial losses. There is no assurance that the Fund will access all these strategies or in any particular proportion, and available strategies may change from time to time. Allocation of opportunities is subject to Blackstone's allocation policies and procedures. Diversification of an investor's portfolio does not ensure a profit or protect against loss in a declining market. All rights to the trademarks and/or logos listed herein belong to their respective owners and Blackstone Credit & Insurance's use hereof does not imply any affiliation with, or endorsement by the owners of these trademarks and/or logos. The companies presented herein are solely for illustrative purposes. References to such companies should not be construed as a recommendation of any particular investment or security. There is no assurance that the Fund will have access to these or similar investment opportunities.

Core plus bond volatility in the last 5 years is higher with lower returns than over the last 20 years

Volatility

Returns

Past performance does not predict future returns. There can be no assurance that any BXCI product will achieve comparable results or avoid substantial losses. The indices presented represent investment that have material differences from an investment in BMACX or the investment that BMACX may make. The above returns do not account for management fees, trading costs, or other portfolio expenses that would reduce returns to investors.

Source: eVestment data analytics as of September 30, 2025. Core Plus Bonds are US Fixed Income products that invest in a well-diversified, investment grade bond portfolio while tactically allocating to "plus" sectors like high yield and emerging markets debt. These strategies seek to enhance returns relative to a core portfolio. Managers may vary in their exposure to "plus" sectors, but between 10% and 35% is typical. Common benchmarks include the Bloomberg Barclays US Aggregate. Represents Blackstone's view of the current market environment as of the date appearing in this material only, which is subject to change. There can be no assurance that the trends depicted herein will continue or will not reverse. See "Important Disclosure Information," in particular "Opinions" and "Trends."

BMACX aims to be a multi-faceted one-stop solution for investors' fixed income portfolios

What Investors May Want

What BMACX Aims to Deliver

 <p>Enhanced Current Income</p>	 <ul style="list-style-type: none"> Private credit provides enhanced income and lower volatility compared to public fixed income by accessing diversified credit strategies across BX's credit platform⁽¹⁾
 <p>Premium Portfolio Diversification</p>	 <ul style="list-style-type: none"> More asset classes for flexible approach to asset allocation Ability to dynamically allocate to compelling opportunities
 <p>Ease of Access and Immediately Invested</p>	 <ul style="list-style-type: none"> Ticker execution with daily subscriptions, expected quarterly liquidity and low investment minimum⁽²⁾ Capital invested immediately; no capital calls
 <p>Investor-Friendly Structure</p>	 <ul style="list-style-type: none"> Individual Retirement Accounts (IRAs) eligible 1099-DIV offers investor-friendly reporting

Note: The above is provided for discussion purposes only and is not intended to be complete and will be qualified in its entirety by reference to final offering materials. Further, the above does not constitute or form part of any offer or solicitation to invest in any Blackstone product mentioned and may not be relied on in any manner as legal, tax, investment, accounting, or other advice. Blackstone does not provide tax advice. Investors should consult their own legal, accounting, and tax advisers to make an independent determination of the suitability and consequences of an investment. Diversification of an investor's portfolio does not ensure a profit or protect against losses in a declining market. There can be no assurance that the Fund will achieve its objectives or avoid substantial losses.

(1) There is no assurance that the Fund will access all these strategies or in any particular proportion, and available strategies may change from time to time. Allocation of opportunities is subject to Blackstone's allocation policies and procedures. Public fixed income includes, but is not limited to, high yield bonds, investment grade bonds, and leveraged loans.

(2) Repurchases are in the aggregate across all share classes, at NAV (either by number of shares or aggregate NAV subject to the approval of the Board of Trustees). Only a limited number of shares are eligible for repurchase and repurchase requests are subject to early repurchase deduction, as applicable.

BMACX TERM SHEET

Structure	Closed-end interval fund registered under the 1940 Act, offered on NSCC, taxed as a Registered Investment Company (“RIC”)
Investment Adviser	Blackstone Private Credit Strategies LLC, an affiliate of Blackstone
Primary Focus	Focused on private investments across a wide range of credit and income-oriented strategies in private corporate credit, asset-based and real estate credit, structured credit and liquid credit
Geographic	US and, to a lesser extent, Europe and other non-US locations
Management Fee	0.75% per annum on average daily value of the Fund’s NAV ⁽⁴⁾
Incentive Fee	12.5% of net investment income only (subject to 5% hurdle rate and catch-up) paid quarterly
Distributions⁽¹⁾	Monthly distributions with daily accrual and record dates
Liquidity⁽²⁾	<ul style="list-style-type: none">■ At least 5% of NAV quarterly■ Shares not held for one year will be repurchased at 98% of NAV
Tax Reporting	Form 1099-DIV
Investor Eligibility⁽³⁾	None

Note: Terms summarized here are for information purposes and are qualified in their entirety by the more detailed information set forth in the Prospectus. An investor in Common Shares will bear, directly or indirectly, additional costs and expenses. See “Fees and Expenses” in the prospectus. You should read the prospectus carefully prior to making an investment.

- (1) There is no assurance the Fund will pay distributions in any particular amount, if at all. Any distributions the Fund makes will be at the discretion of our board of trustees. The Fund has funded and the Fund may in the future fund any distributions from sources other than cash flow from operations, including, without limitation, the sale of assets, borrowings, return of capital or offering proceeds, and the Fund has no limits on the amounts the Fund may pay from such sources.
- (2) The Fund has adopted, pursuant to Rule 23c -3 under the 1940 Act, a fundamental policy, which cannot be changed without shareholder approval, requiring the Fund to offer to repurchase at least 5% and up to 25% of its Common Shares at NAV on a quarterly basis. Although the policy permits repurchases of between 5% and 25% of the Fund’s outstanding Common Shares, for each quarterly repurchase offer, BMACX currently expects to offer to repurchase 5% of the Fund’s outstanding Common Shares (in the aggregate across all share classes) at NAV (either by number of shares or aggregate NAV) subject to the approval of the Board of Trustees. Only a limited number of shares are eligible for repurchase and repurchase requests are subject to early repurchase deduction, as applicable.
- (3) Select broker-dealers may have different suitability standards, may not offer all share classes, and/or may offer Blackstone Private Multi-Asset Credit Fund at a higher minimum initial investment than \$2,500.
- (4) The Adviser waived the management fee in full for the six-month period beginning from the date the Fund completed its first sale of shares in its public offering.

SHARE CLASS-SPECIFIC FEES

Total Annual Expenses (after waiver and/or reimbursement⁽⁴⁾ and excluding interest expense⁽⁵⁾ and AFFE interest expense⁽⁶⁾)	1.8%	1.8%	2.0%	2.5%

Note: Terms summarized here are for information purposes and are qualified in their entirety by the more detailed information set forth in the Prospectus. An investor in Common Shares will bear, directly or indirectly, additional costs and expenses. See "Fees and Expenses" in the Prospectus. **The above is provided for discussion purposes only, is subject to change, and is not intended to be complete and will be qualified in its entirety by reference to final offering materials.**

- The intermediary manager may elect to accept smaller investments in its discretion.
- No upfront sales load will be paid with respect to Class S shares, Class D shares, Class I shares or Class I Advisory shares; however, if you buy Class S shares or Class D shares through certain financial intermediaries, they may directly charge you transaction or other fees, including upfront placement fees or brokerage commissions, in such amount as they may determine, provided that selling agents limit such charges to a 1.5% cap on NAV for Class D shares and 3.5% cap on NAV for Class S shares. Selling agents will not charge such fees on Class I shares or Class I Advisory shares. Please consult your selling agent for additional information.
- Weighted average net assets employed as the denominator for expense ratio computation is \$1.5 billion. Actual net assets will depend on the number of shares we actually sell, realized gains/losses, unrealized appreciation/depreciation and share repurchase activity, if any. "Annual Expenses" are composed of base management fees, incentive fees, administration fees, shareholder servicing and/or distribution fees, interest payments on borrowed funds ("interest expense"), acquired fund fees and expenses, and other expenses, as set forth in more detail in BMACX's prospectus. Actual expenses may be greater or less than shown and these figures should not be considered a representation of future expenses. Other expenses include accounting, legal and auditing fees, reimbursement of expenses to our Administrator, organization and offering expenses and fees payable to our Trustees. The amount presented in the table includes an estimate of the amounts we expect to pay during the initial 12-month period of the offering following the initial closing of the offering.
- The Adviser will waive its compensation (and, to the extent necessary, bear other expenses of or make payments to the Fund) to the extent that, for any calendar month, Specified Expenses would exceed the Total Expense Cap. "Specified Expenses" of the Fund means all expenses incurred in the business of the Fund, including organizational and certain offering expenses, with the exception of: (i) investment advisory fees (including management and incentive fees), (ii) the shareholder servicing and/or distribution fees, (iii) brokerage costs, (iv) dividend/interest payments (including any dividend payments, interest expenses, commitment fees, or other expenses related to any leverage incurred by the Fund), (v) taxes, (vi) extraordinary expenses (as determined in the sole discretion of the Adviser), and (vii) acquired fund fees and expenses. "Total Expense Cap" means the annual rate of 0.50% of the Fund's net assets (annualized). The Adviser may discontinue its obligation to waive its compensation or to bear other expenses at any time (i) prior to the one (1)-year anniversary of the date the Fund completes its first sale of shares in its public offering, with the written consent of the Board of Trustees and (ii) on or after the one (1)-year anniversary of the date the Fund completes its first sale of shares in its public offering, upon written notice to the Fund. If, while the Adviser is the investment adviser to the Fund, the estimated annualized Specified Expenses for a given month are less than the Total Expense Cap, the Adviser shall be entitled to reimbursement by the Fund of the compensation waived and other expenses borne by the Adviser on behalf of the Fund pursuant to the Fund's Expense Limitation and Reimbursement Agreement (the "Reimbursement Amount") during any of the previous thirty-six (36)-months, but only to the extent that the Fund's estimated annualized Specified Expenses are less than, for such month, the lesser of the Total Expense Cap or any other relevant expense limit then in effect with respect to the Fund, and provided that such amount paid to the Adviser will in no event exceed the total Reimbursement Amount and will not include any amounts previously reimbursed. The Adviser may recapture a Specified Expense in any year within the thirty-six (36)-month period after the Adviser bears the expense.
- Interest expense refers to interest payment on borrowed funds incurred by the Fund, which is estimated to be 1.36%. We may borrow funds to make investments, including before we have fully invested the proceeds of this continuous offering. To the extent that we determine it is appropriate to borrow funds to make investments, the costs associated with such borrowing will be indirectly borne by shareholders. The estimated 1.36% figure assumes that we borrow for investment purposes an amount equal to 20% of our weighted average net assets, and that the average annual cost of borrowings, including the amortization of cost associated with obtaining borrowings and unused commitment fees, on the amount borrowed is currently estimated to be 6.79%. Our ability to incur leverage depends, in large part, on the availability of financing in the market.
- AFFE interest expense refers to 1.97% of interest payment on borrowed funds included in estimated Acquired Fund Fees and Expenses (or "AFFE"), which are expenses incurred indirectly by the Fund through its ownership of shares in other investment companies, including affiliated funds. The Fund may invest in investment companies or BDCs managed by the Adviser or its affiliates. The impact of AFFE is included in the total returns of the Fund. AFFE are not direct costs of the Fund. The estimated AFFE include 1.97% of interest payment on borrowed funds. To the extent the Fund invests in investment companies or BDCs managed by the Adviser or its affiliates, shareholders will not bear duplicative fees. Accordingly, the estimated management fees borne through investments in investment companies or BDCs managed by the Adviser or its affiliates are included in fees waived and/or expenses reimbursed.

Endnotes

BMACX Performance

1. BMACX may also invest in liquid credit and other types of investments to the extent that these investments are consistent with our investment objective, strategies and policies, and permissible under the Investment Company Act of 1940 and other applicable regulations.
2. Inception date for Class I shares: May 1, 2025. Inception date for Class I Advisory and Class S shares: July 1, 2025. Inception-to-date ("ITD") total return as of November 30, 2025 for Class I Advisory shares: 4.7% and for Class S shares (no/with upfront placement fee): 4.4%/0.7%. Total return is calculated assuming a purchase of common share at the opening on the first day and a sale at closing on the last day of each period reported. Dividends and distributions are assumed for purposes of this calculation to be reinvested at prices obtained under the Fund's distribution reinvestment plan. The Adviser waived the management fee in full for the six-month period beginning from the date the Fund completed its first sale of shares in its public offering. Without this waiver, returns would be lower. Returns greater than one year are annualized. **All returns shown are derived from unaudited financial information and are net of all BMACX expenses, including general and administrative expenses, transaction related expenses, management fees, incentive fees, and share class specific fees, as applicable, but exclude the impact of early repurchase deductions on the repurchase of shares that have been outstanding for less than one year.** Class S listed as (With Upfront Placement Fee or Brokerage Commissions) reflect the returns after the maximum upfront placement fees. Class S listed as (No Upfront Placement Fee or Brokerage Commissions) exclude upfront placement fees. Class I and Class I Advisory do not have upfront placement fees. **The returns have been prepared using unaudited data and valuations of the underlying investments in BMACX's portfolio, which are estimates of fair value and form the basis for BMACX's NAV. Valuations based upon unaudited reports from the underlying investments may be subject to later adjustments, may not correspond to realized value and may not accurately reflect the price at which assets could be liquidated.**
3. Distributions reflect monthly distribution amounts per share of Class I. We expect to declare distributions daily and pay regular monthly distributions. Accruals will occur daily, provided, however, that accruals on any non-business day will be effective as of the immediately preceding business day. Past performance does not predict future returns. Distributions may be funded through sources other than net investment income. See BMACX's prospectus. Please visit the Shareholders page on BMACX's website for notices regarding distributions subject to Section 19(a) of the Investment Company Act of 1940. We cannot guarantee that we will make distributions, and if we do we may fund such distributions from sources other than net investment income, including the sale of assets, borrowings, return of capital, or offering proceeds, and although we generally expect to fund distributions from net investment income, we have not established limits on the amounts we may pay from such sources. As of November 30, 2025, 100% of inception to date distributions were funded from net investment income or realized short-term capital gains, rather than a return of capital. A return of capital is not paid from tax earnings or profits and will have the effect of reducing the tax basis of a shareholder's Common Shares, such that when a shareholder sells its Common Shares the sale may be subject to tax, even if the Common Shares are sold for less than the original purchase price. Distributions may also be funded in significant part, directly or indirectly, from temporary waivers or expense reimbursements borne by BMACX's adviser, Blackstone Private Credit Strategies LLC (the "Adviser") or its affiliates, that may be subject to reimbursement to the Adviser or its affiliates. The repayment of any amounts owed to our affiliates will reduce future distributions to which you would otherwise be entitled.
